MISCELLANEOUS ITEMS. - The Bombay Gazette, of November 20, publishes an interesting letter from Dr. Living Sone, dated May 30 last, and received at Zanzibar by Dr. Kirk, the British Consul, on the 2d of October last, in which he speaks of intending soon to complete his travels and explorations in Africa .-He says: - "As to the work to be done by me it is only to connect the sources which I have discovered from 500 to 700 miles south of Speke and Baker's with their Nile. The volume of water which flows north from latitude 12 south is so large, I suspect that I have been working at the sources of the Cango as well as those of the Nile.'

Madeira is again becoming a great wine island. It is said that the vine is already covering the land in districts formerly known to be best adapted to it; and, moreover, ground which, in the memory of man, has never before been planted, is now covered with the light refreshing foliage and the heavy clusters of black and golden Madeira grapes hanging luxuriantly from the trellises.
